

HP SILVER INTERIOR

PREMIUM WINDOW FILM DATASHEET

HP Silver Interior is an advanced internal solar control window film engineered to significantly reduce heat, provide daytime privacy, and protect interior furnishings and flooring from harmful UV fading. Thanks to its premium metallized layer, it delivers exceptional glare reduction by reflecting sunlight outwards. The film provides a sleek, silver-reflective exterior finish while maintaining crystal-clear optical clarity from the inside looking out. It remains one of the most popular and trusted choices for both residential homes and commercial buildings.

Key Advantages

- Silver reflective film
- High heat protection that contributes to comfortable indoor environment.
- Glare protection
- Blocks 99% UV
- Gives a nice look on the facade
- 10 years warranty
